THREE MORE WEEKS

Spanish Flag Expected to Disappear From Porto Rico In That Time.

THE EVACUATION OF CUBA

Estimated That It Will Be the End of February Before the Last of Spanish Troops Leave the Island—Secretary of War Alger Starts on His Inspection of Military Camps.

San Juan de Porto Rico, Sept. 19.—The preparations for the embarkation of the Spanish troops are reported to be complete, although the American commissioners have not been officially advised to that effect.

Two ships of the Compania Transatlantica are expected to arrive here on the 26th inst. Five vessels will be required to transport all the troops with their luggage, and the field artillery and equipments. The Porto Rican troops are to be landed near Cadiz.

The United States evacuation commissioners have agreed that such troops as desire to remain here may do so, and practically all the volunteers and some of the regulars whose families and interests are here will remain. If the necessary ships were here the island would be evacuated and formally in our possession within three days.

The American commissioners are highly gratified with the spirit shown by the Spaniards. The unexpected has happened. Where it was expected that opposition and delay would be encountered none has been found. In good faith the Spanish commissioners have met the Americans and arranged with them the terms of evacuation. Our commissioners expect to see the American flag hoisted and the Spanish flag hauled down forever within three weeks.

EVACUATION OF CUBA.

Estimated That It Will Take Until February For Spanish to Withdraw.

Havana, Sept. 19.—Rumors that have been put in circulation to the effect that General Wade, president of the American evacuation commission is ill with yellow fever, may be denied absolutely. General Wade is looking the picture of health. He breakfasted yesterday with his staff at the Louvre restaurant.

Today the commissioners and their entire staff will remove to the Trocha hotel at Vedado, which has been put in excellent sanitary condition. The general health aboard the steamer Resolute is good.

An official meeting of the Spanish commission of evacuation was held Saturday night to consider the form of evacuation by the Spanish troops, and with the object of acquainting the American commission with the exact number and positions of the Spanish soldiers and the best method of embarking them.

It is understood that it is proposed to start the evacuation from east to west, embarking the troops at the ports of Gibara, Nuevitas, Cienfuegos and Havana.

The official statement of the number of Spanish soldiers in the island is said to place the aggregate at 100,000, and it is understood that it is proposed that the men shall carry with them their arms, ammunition, material and equipments.

It is estimated that the end of February will have come before the evacuation of the island is completed, as the soldiers must embark in Spanish vessels.

It is suggested that this will be an advantage to both countries, the United States having an opportunity to acclimatize its men during the winter months, as it is proposed that the American government shall land troops to occupy each post simultaneously with its

evacuation, not leaving any post unguarded at any time.

SECRETARY ALGER.

Detroit, Sept. 19.—After a week's vacation at his home, Secretary Alger left last night on his inspection of southern camps and hospitals, accompanied by his aide, Major Hopkins, going to Cincinnati, where he will be joined by Surgeon General Sternberg, Governor Pingree, Brigadier General Duffield and Colonel Gardner of the Thirty-first Michigan saw the secretary aboard his car. Colonel Gardner will join the general on Wednesday at Lexington and go with him to inspect his regiment at Knoxville. The camps to be inspected are at Fort Thomas, Lexington, Knoxville, Chickamauga, Anniston, Ala., and probably Huntsville, Jacksonville and Charleston. Secretary Alger expects to reach Washington a week from next Wednesday.

SOON BE DESERTED.

Fourteen Hundred More Soldiers Leave Camp Wikoff.

New York, Sept. 19.—The military camp at Montauk Point, L. I., will soon be deserted. In all 1,400 soldiers from Camp Wikoff reached this city yesterday on the transport Chester and the ambulance boat Shinnecock. The troops brought by the Chester, being in fair health, were placed on trains in New Jersey and are now on their way to the posts assigned to them in the different parts of the country. The men of the Sixth United States infantry will do duty at Fort Thomas, at Newport, Ky., and the Tenth United States infantry is proceeding to Huntsville, Ala. Batteries A and E, First artillery, will do duty until further orders at Hilton Head, Port Royal, S. C.

CAPTAIN CAPRON.

Dies at Fort Myer From Disease Contracted at Santiago.

Washington, Sept. 19.—Captain Allyn Capron, First artillery, died at his home near Fort Myer, Va., yesterday. Captain Capron was one of the best known officers in the regular army. He had devoted himself particularly to the artillery branch of the service, having been an honor graduate of the artillery school in 1873, and was regarded as an authority on artillery tactics. When General Shafter's corps went to Santiago, Capron accompanied it, and his battery did notably fine work in the battle of Santiago. During the first day's fight before the city Captain Capron's son, Captain Allyn K. Capron of the Rough Riders, was killed. The death of his son preyed upon the father's mind, but he never swerved for an instant from his duty during the terrible days that followed. The seeds of disease were sown in his system during the Cuban campaign, and he returned to his home at Fort Myer, near this city, only to be stricken down with typhoid fever.

Captain Capron was born in Florida and entered the military academy as a cadet in 1863.

TRANSPORT MICHIGAN.

Arrives From Santiago With Stewards, Nurses and Laborers.

New York, Sept. 19.—The United States transport Michigan arrived from Santiago yesterday, from which port she sailed on Sept. 11. The Michigan brought 29 passengers, among whom are Captain Charles T. Baker, assistant quartermaster; Captain E. Primmell of the Cuban army; Surgeons Kennedy and Agramonte and two United States army clerks. The other passengers were hospital stewards, nurses and laborers. The Michigan was boarded by the health officer and all being well on board and the transport in good sanitary condition, she was permitted to proceed. The transport anchored off Liberty island awaiting instructions from the quartermaster's department.

Shipping His Sick to Hospitals.

Camp Meade, Pa., Sept. 19.—Fifteen typhoid fever cases were shipped from the Second division hospital last evening to the Charity hospital, Norristown, in a special car. Chief Surgeon Girard believes the sick do better in city hospitals than in tents and has arranged to ship more away today to Harrisburg and Philadelphia hospitals. There are 175 fever and rheumatism patients in the general hospitals and they will be taken away as rapidly as they can be moved.

Colonel Culver Visiting His Sick.

Chickamauga, Ga., Sept. 19.—There were two deaths at Sternberg hospital yesterday. A Chevalier, Company M, Fourteenth New York, and William H. Fowler, Company F, Second Arkansas. There were no deaths at Leiter. Colonel J. S. Culver of the Fifth Illinois volunteer infantry from Springfield, Ill., is here. He is on a visit to the various hospitals here, Lexington and Atlanta, at each of which he has several sick men. All at this point are doing well.

ARCHBISHOP DOZAL

Philippine Priest Hopes the Island Will Not Remain Spanish.

RECONQUEST OF NATIVES

Would Take Years of Most Cruel Warfare—Religious Orders Must Go, Says the Prelate—Annexationists Have a Majority in National Assembly—Sultan Orders His Troops in Crete Disarmed.

Manila, Sept. 19.—In an interview here with him by a press correspondent Archbishop Dozal of the Philippine islands said:

"I earnestly hope the islands will not remain Spanish because the rebels are now so strong that such a course would inevitably cause appalling bloodshed. The reconquest of the natives is impossible until after years of the most cruel warfare."

He also expressed the hope that the islands would not become absolutely independent, because it was certain that dissensions would occur which would result in incessant strife and a lapse into barbarism and the natural indolence of the tropical race. The only hope, the archbishop declared, was that a strong western power would intervene now. Delay was dangerous because the people are intoxicated, vain and restless.

He said it was undeniable that the religious orders must go, because the whole people had determined to abolish them now that they were able to render their retention impossible. He lay the chief blame upon the Dominicans, Augustines and Franciscan Recollects, the richest orders, and next upon the Benedictines and Capuchins, who are of less importance. The Jesuits, Archbishop Dozal says, are comparatively blameless.

He added that the rival orders quarrel among themselves, intrigue, act unworthily and slander their opponents, thus increasing their general disfavor. The Provincials, who are approximately equivalent to archdeacons, are mainly responsible. They are utterly beyond the control of the archbishop, who denies possessing much power.

The total number of Spanish priests in the Philippines before the war was about 1,000, but lately every departing steamer has taken 50 or 100 of them away, and now barely 500 remain.

A native priest privately stated to the correspondent that the reason the archbishop hopes for the expulsion of the Friars is orders is that they have grown too powerful for him and that he wishes to strengthen himself. Several responsible Spaniards assured the correspondent that they would refuse to remain here if Spain was reinstated in the control of the islands.

Some of the Spanish soldiers refuse to serve again, and Spanish officers are utterly disgusted with the rottenness of Spain's government and prefer to become American subjects.

The annexationists have a majority of 71 in the national assembly, but the dissonance of the subject has not been finished.

SULTAN ACCEDES.

To the British Commander's Demand at Candia.

Candia, Island of Crete, Sept. 19.—The sultan has ordered Djavad Pasha, the military commander in Crete, to accede to the demand of the British admiral, Gerard Henry Noel, for disarmament, thus complying with the whole ultimatum of the admiral. A British military detachment yesterday occupied the entrance to the port, and it is rumored that the Ottoman troops will be withdrawn and a British force will occupy the town.

Among the prisoners already handed over to Admiral Noel are two who are credited with being ringleaders in the attack on the British camp.

Spanish Peace Commissioners.

Madrid, Sept. 19.—The Official Gazette publishes the announcement of the appointment of Senator Montero Rios, president of the senate; Senor Albaraz, Senor Garriga, General Cervera and Senor Villanueva as the Spanish peace commissioners. Senors Du Bose and Aranguren, formerly secretaries to the Spanish legation at Washington, have been transferred from St. Petersburg to Vienna.

Will Insist on Retention of Philippines.

London, Sept. 19.—The Mail's Madrid correspondent says a long conference was held between Senor Sigasta, the premier, and Senor Montero Rios, the president of the Spanish peace commission today, which resulted in the decision that the peace commission shall strenuously defend the retention of the Philippine islands by Spain.

Will Suspend Montojo and Sotola.

Madrid, Sept. 19.—The supreme council of war has decided to suspend Admiral Montojo and Major Sotola, director of the Cadiz arsenal.

Probably Fatally Stabbed.

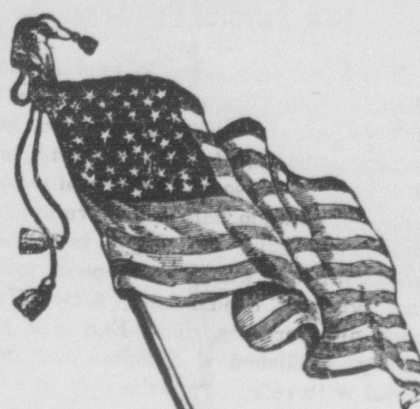

Danville, Ill., Sept. 19.—Thurman Russell Saturday probably fatally stabbed Harry Cordray. The victim is the son of the great Pacific theatrical manager. His recovery is doubtful. He is about 18 years old, and it is said that the present difficulty was not entirely unexpected by him. The trouble grew out of alleged trouble with other members of Russell's family. Cordray is very popular here.

Proved Self-defense.

Richmond, Ky., Sept. 19.—After a trial lasting two days, young Rutherford Todd, charged with the murder of Daniel W. Little, was acquitted here late Saturday. Todd's plea was self-defense.

Maligned Officers and Soldiers.

Santiago de Cuba, Sept. 19.—Charges have been preferred by Captain Miller of the Second immune regiment and Captain Shelley of the Fifth immunes against Sergeant John W. Johnson of the Third regiment for maligning and libeling the officers and soldiers of their respective regiments in an article published in the Atlanta Constitution on Aug. 2.

HAVEN'T THE POWER.

Directors of a Building Association Cannot Make an Assignment.

Eminence, Ky., Sept. 19.—A case of much interest was tried Saturday before Judge Carroll. The Eminence Building and Loan association, by the directors, made an assignment to W. L. Hudson and W. E. Clubb. The stockholders attacked the assignment and the court held, after a lengthy argument of counsel, that a building and loan association had no power to make an assignment; that a properly managed building and loan association could not be insolvent, and thereupon the assignment was set aside. The assignees were removed and the business placed in the hands of a receiver until, under the supervision of the court, the stockholders meet and elect new directors and officers, the old directors having abdicated their positions by reason of the pretended assignment. This is an entirely new phase of the building and loan question in Kentucky, and it is the first decision of this kind ever rendered in the state, and able lawyers say the decision is sound and will be upheld by the court of appeals.

Paying Seal Fishery Damages.

Victoria, B. C., Sept. 19.—Word was received here from Ottawa yesterday that checks had been issued to the individual beneficiaries under the sealing award. The total amount is \$300,188 damages and \$172,968 interest.

WILLIAM NEWBERRY.

Dies From Effects of a Beating Received Nearly a Year Ago.

Greensburg, Ind., Sept. 19.—William Newberry is dead of injuries received last October at a dance near Slabtown, this county. There was a dance at the barn of William Tressler, near Slabtown. Newberry being one of the invited guests. One of the Tressler boys, being jealous of the attentions of Newberry to a neighbor girl, they ordered him to leave the dance. He was followed by the Tresslers and others and badly beaten up. After going some distance he fell unconscious near a fodder shock, and was subsequently taken home, where for months he lay in an unconscious condition. Several delicate surgical operations were performed from time to time to remove pieces of the fractured skull. He was finally able to appear at the trial of Fred Tressler, who was convicted and sent to the penitentiary. The same evening William Newberry's brother was followed home from the dance by unknown persons and murdered. His body was found near a strawstack the next morning.

Indiana M. E. Conference.

Princeton, Ind., Sept. 19.—Rev. G. D. Wolfe of the First Methodist church has completed the programme for the week's session of the Indiana M. E. conference, which meets in this city Sept. 27. Bishops Niide, Bowman and Hartwell will be present, Bishop Niide presiding.

Captured the Burglar.

Waterloo, Ind., Sept. 19.—John Johnson, a burglar, was arrested at Kendallville and brought to this city, where he was sent to jail. He burglarized the farm residence of Jeff Beard, near this city, one night last week and on him were found gold bracelets, necklace, rings, razors and \$4.56 in coin.

Has an Alleged Shortage.

Marion, Ind., Sept. 19.—Dr. I. N. Seal, trustee of Liberty township, has been found to be \$1,200 short in his accounts and will resign at once. His neighbors threaten to prosecute him.

Winnie Davis

Daughter of Jefferson Davis, President of the Confederacy, Dead.

Narragansett Pier, Sept. 19.—Miss Winnie Davis, daughter of Mrs. Jefferson Davis, wife of the president of the confederate states, died yesterday at the Rockingham hotel, to which place she came as a guest in the early part of the Pier's social season. She had been ill for several weeks, and a fortnight ago her ailment was diagnosed as malarial gastritis. At times her condition became very serious, so that consultations of physicians were deemed necessary, but frequent rallies gave renewed hope that she would ultimately recover.

Saturday night, however, a relapse in Miss Davis' condition was noticed, and yesterday morning the physicians said the end was not far off, and at noon death came to end her sufferings. The physicians of Mrs. Davis report she is holding up with great calmness in her affliction.

Old Prisoners Attack a New Batch Being Shuttled into the Prison.

Hopkinsville, Ky., Sept. 19.—While a number of new prisoners were being ushered into the corridors of the county jail Saturday a riot was started by old prisoners throwing things at them through cell windows. Some prisoners got loose, and before the fight could be quelled several were seriously injured. Will Hughes, who is to be sold for vagrancy, had one eye knocked entirely out with a heavy glass.

Yellow Fever in the South.

Louisville, Sept. 19.—Advices from the south indicate no material change in the yellow fever situation since Saturday night's report. Following is a resume of the reports received: Dr. Gant has arrived at Oxford, Miss., and after looking into the two cases of fever in the Jumper family, said they were undoubtedly yellow fever. He also located several suspicious cases in the family of L. N. Word. Dr. Price of Raymond, Miss., reports that he has a patient who is suspiciously ill. The investigation of the suspicious cases in Jackson continues and all suspects so far have been discharged.

Louisville Driving Association Meet.

Louisville, Sept. 19.—The fall meeting of the Louisville Driving and Fair association, to be held from Sept. 26 to Oct. 1, will be a notable trotting carnival. The stakes and purses aggregate \$40,000. The entry lists have closed with great fields and coming as it does between Terre Haute and Lexington, will attract the best harness blood in the country. The opening day will witness three great races—the Commercial city stake for \$2,000; the Preparation, \$1,000, and the Frank Febr, \$2,000.

Many of the North American Indians were magnificent specimens of physical manhood. This was due, largely, to their active outdoor life. Nevertheless, they had the wisdom to know that an active life in the open air alone would not keep a man healthy. They had their medicine-men, who gathered herbs from field and forest and brewed decoctions to assist the natural processes of the various vital organs.

Modern civilized men do not as a usual thing recognize the same necessity until it is too late. They ignore medicine until they are within the grasp of some serious or fatal disease. The time for a man to begin taking medicine is when he begins to feel out of sorts. If a man is thoroughly well and healthy he does not feel that way. If he does feel that way he may be pretty sure that he is half sick. When he is half sick it does not take long before he is "whole-sick." Dr. Pierce's Golden Medical Discovery is the best medicine for a man when he is sick or getting sick. It puts him all right all round. It puts his stomach right to begin with, and that is the most important point. It puts his liver right, and that is the second most important point. It purifies his blood and fills it with the life-giving elements of the food he eats, and that is the third most important point. It drives out all disease germs and impurities of every description. It makes the appetite keen and hearty. It is the greatest blood-maker and flesh-builder. It cures 98 per cent of all cases of consumption, weak lungs, spitting of blood, obstinate coughs and kindred ailments. Thousands who were given up to die have testified to their recovery under this marvelous medicine. An honest dealer will not urge a substitute for the sake of a little extra profit. Dies at Fort Myer From Disease Contracted at Santiago.

Washington, Sept. 19.—Captain Allyn Capron, First artillery, died at his home near Fort Myer, Va., yesterday. Captain Capron was one of the best known officers in the regular army. He had devoted himself particularly to the artillery branch of the service, having been an honor graduate of the artillery school in 1873, and was regarded as an authority on artillery tactics. When General Shafter's corps went to Santiago, he was with it.

ago Captain Capron accompanied it, and his battery did notably fine work in the battle of Santiago. During the first day's fight before the city Captain Capron's son, Captain Allyn K. Capron of the Rough Riders, was killed. The death of his son preyed upon the father's mind, but he never recovered for an instant from his duty during the terrible days that followed. The seeds of disease were sown in his system during the Cuban campaign, and he returned to his home at Fort Myer, near this city, only to be stricken down with typhoid fever.

Captain Capron was born in Florida and entered the military academy as a cadet in 1863.

TRANSPORT MICHIGAN.

Arrives From Santiago With Stewards, Nurses and Laborers.

New York, Sept. 19.—The United States transport Michigan arrived from Santiago yesterday, from which port she sailed on Sept. 11. The Michigan brought 29 passengers, among whom are Captain Charles T. Baker, assistant quartermaster; Captain E. Primelles of the Cuban army; Surgeons Kennedy and Agramonte and two United States army clerks. The other passengers were hospital stewards, nurses and laborers.

The Michigan was boarded by the health officer and all being well on board and the transport in good sanitary condition, she was permitted to proceed. The transport anchored off Liberty island awaiting instructions from the quartermaster's department.

Shipping His Sick to Hospitals.

Camp Meade, Pa., Sept. 19.—Fifteen typhoid fever cases were shipped from the Second division hospital last evening to the Charity hospital, Norristown, in a special car. Chief Surgeon Girard believes the sick do better in city hospitals than in tents and has arranged to ship more away today to Harrisburg and Philadelphia hospitals. There are 175 fever and rheumatism patients in the general hospitals and they will be taken away as rapidly as they can be moved.

Colonel Culver Visiting His Sick. Chickamauga, Ga., Sept. 19.—There were two deaths at Sternberg hospital yesterday. A Chevalier, Company M, Fourteenth New York, and William H. Fowler, Company F, Second Arkansas. There were no deaths at Loiter. Colonel J. S. Culver of the Fifth Illinois volunteer infantry from Springfield, Ills., is here. He is on a visit to the various hospitals here, Lexington and Atlanta, at each of which he has several sick men. All at this point are doing well.

Malignant Officers and Soldiers.

Santiago de Cuba, Sept. 19.—Charges have been preferred by Captain Miller of the Second immune regiment and Captain Shelley of the Fifth immunes against Sergeant John W. Johnson of the Third regiment for maligning and libeling the officers and soldiers of their respective regiments in an article published in the Atlanta Constitution on Aug. 2.

HAVEN'T THE POWER.

Directors of a Building Association Cannot Make an Assignment.

Eminence, Ky., Sept. 19.—A case of much interest was tried Saturday before Judge Carroll. The Eminence Building and Loan association, by the directors, made an assignment to W. L. Hudson and W. E. Clubb. The stockholders attacked the assignment and the court held, after a lengthy argument of counsel, that a building and loan association had no power to make an assignment; that a properly managed building and loan association could not be insolvent, and thereupon the assignment was set aside. The assignees were removed and the business placed in the hands of a receiver until, under the supervision of the court, the stockholders meet and elect new directors and officers, the old directors having abdicated their positions by reason of the pretended assignment. This is an entirely new phase of the building and loan question in Kentucky, and it is the first decision of this kind ever rendered in the state, and able lawyers say the decision is sound and will be upheld by the court of appeals.

Paying Salt Fishery Damages.

Victoria, B. C., Sept. 19.—Word was received here from Ottawa yesterday that checks had been issued to the individual beneficiaries under the sealing award. The total amount is \$300,188 damages and \$172,908 interest.

WILLIAM NEWBERRY.

Dies From Effects of a Beating Received Nearly a Year Ago.

Greensburg, Ind., Sept. 19.—William Newberry is dead of injuries received last October at a dance near Slabtown, this county. There was a dance at the barn of William Tressler, near Slabtown. Newberry being one of the invited guests. One of the Tressler boys, being jealous of the attentions of Newberry to a neighbor girl, they ordered him to leave the dance. He was followed by the Tresslers and others and badly beaten up. After going some distance he fell unconscious near a fodder shock, and was subsequently taken home, where for months he lay in an unconscious condition. Several delicate surgical operations were performed from time to time to remove pieces of the fractured skull. He was finally able to appear at the trial of Fred Tressler, who was convicted and sent to the penitentiary. The same evening William Newberry's brother was followed home from the dance by unknown persons and murdered. His body was found near a strawstack the next morning.

Indiana M. E. Conference.

Princeton, Ind., Sept. 19.—Rev. G. D. Wolfe of the First Methodist church has completed the programme for the week's session of the Indiana M. E. conference, which meets in this city Sept. 27. Bishops Niide, Bowman and Hartzell will be present, Bishop Niide presiding.

Captured the Burglar.

Waterloo, Ind., Sept. 19.—John Johnson, a burglar, was arrested at Kendallville and brought to this city, where he was sent to jail. He burglarized the farm residence of Jeff Beard, near this city, one night last week and on him were found gold bracelets, necklace, rings, razors and \$4.56 in coin.

Has an Alleged Shortage.

Marion, Ind., Sept. 19.—Dr. I. N. Seal, trustee of Liberty township, has been found to be \$1,200 short in his accounts and will resign at once. His neighbors threaten to prosecute him.

ARCHBISHOP DOZAL

Philippine Priest Hopes the Island Will Not Remain Spanish.

RECONQUEST OF NATIVES

Would Take Years of Most Cruel Warfare—Religious Orders Must Go, Says the Prelate—Annexationists Have a Majority in National Assembly—Sultan Orders His Troops in Crete Disarmed.

Manila, Sept. 19.—In an interview here with him by a press correspondent Archbishop Dozal of the Philippine islands said:

"I earnestly hope the islands will not remain Spanish because the rebels are now so strong that such a course would inevitably cause appalling bloodshed. The reconquest of the natives is impossible until after years of the most cruel warfare."

He also expressed the hope that the islands would not become absolutely independent, because it was certain that dissensions would occur which would result in incessant strife and a lapse into barbarism and the natural indolence of the tropical race. The only hope, the archbishop declared, was that a strong western power would intervene now. Delay was dangerous because the people are intoxicated, vain and restless.

He said it was undeniable that the religious orders must go, because the whole people had determined to abolish them now that they were able to render their retention impossible. He lay the chief blame upon the Dominicans, Augustines and Franciscan Recollectans, the richest orders, and next upon the Benedictines and Capuchians, who are of less importance. The Jesuits, Archbishop Dozal says, are comparatively blameless.

He added that the rival orders quarrel among themselves, intrigue, act unworthily and slander their opponents, thus increasing their general disfavor. The Provincials, who are approximately equivalent to archdeacons, are mainly responsible. They are utterly beyond the control of the archbishop, who denies possessing much power.

The total number of Spanish priests in the Philippines before the war was about 1,000, but lately every departing steamer has taken 50 or 100 of them away, and now barely 500 remain.

A native priest privately stated to the correspondent that the reason the archbishop hopes for the expulsion of the Friary orders is that they have grown too powerful for him and that he wishes to strengthen himself. Several responsible Spaniards assured the correspondent that they would refuse to remain here if Spain was reinstalled in the control of the islands. Some of the Spanish soldiers refuse to serve again, and Spanish officers are utterly disgusted with the rottenness of Spain's government and prefer to become American subjects.

SULTAN ACCEDES.

To the British Commander's Demand at Candia.

Candia, Island of Crete, Sept. 19.—The Sultan has ordered Djavad Pasha, the military commander in Crete, to accede to the demand of the British admiral, Gerard Henry Noel, for disarmament, thus complying with the whole ultimatum of the admiral. A British military detachment yesterday occupied the entrance to the port, and it is rumored that the Ottoman troops will be withdrawn and a British force will occupy the town.

Among the prisoners already handed over to Admiral Noel are two who are credited with being ring-leaders in the attack on the British camp.

Spanish Peace Commissioners.

Madrid, Sept. 19.—The Official Gazette publishes the announcement of the appointment of Senator Montero Rios, president of the senate; Senor Alaraz, Senor Garriga, General Cervera and Senor Villanueva as the Spanish peace commissioners. Senors Du Bose and Aranguren, formerly secretaries to the Spanish legation at Washington, have been transferred from St. Petersburg to Vienna.

Will Insist on Retention of Philippines.

London, Sept. 19.—The Mail's Madrid correspondent says a long conference was held between Senor Sagasta, the premier, and Senor Montero Rios, the president of the Spanish peace commission, that the peace commission shall strenuously defend the retention of the Philippine islands by Spain.

Will Suspend Montojo and Sostoa.

Madrid, Sept. 19.—The supreme council of war has decided to suspend Admiral Montojo and Major Sostoa, director of the Cadiz arsenal.

Probably Fatally Struck.

Danville, Ills., Sept. 19.—Thurman Russell Saturday probably fatally struck Harry Cordray. The victim is the son of the great Pacific theatrical manager. His recovery is doubtful. He is about 18 years old, and it is said that the present difficulty was not entirely unexpected by him. The trouble grew out of alleged trouble with other members of Russell's family. Cordray is very popular here.

Proved Self-defense.

Richmond, Ky., Sept. 19.—After a trial lasting two days, young Rutherford Todd, charged with the murder of Daniel W. Little, was acquitted here Saturday. Todd's plea was self-defense.

EDUCATIONAL

Committee of Fifteen to Investigate the Subject of a National University.

Winona, Minn., Sept. 19.—Professor Charles DeGarmo of Cornell University, the retiring president of the National Council of Education, yesterday announced the committee of 15 authorized at the meeting of the council in Washington on July 7, last, "to investigate the whole subject of the establishment of a national university, and to report to the council at its next meeting."

The project for a national university has been so vigorously pushed of late, that the council thought the time had come for an authoritative investigation of the subject and the presentation to the country of a report that would be influential in shaping public and legislative opinion. The committee is a very strong one and thoroughly representative, both of the various educational interests of the country and of the several sections. The committee is not appointed to endorse or to oppose any particular plan for a national university and will take up the subject in a thoroughly unbiased and scientific manner.

WINNIE DAVIS

Daughter of Jefferson Davis, President of the Confederacy, Dead.

Narragansett Pier, Sept. 19.—Miss Winnie Davis, daughter of Mrs. Jefferson Davis, wife of the president of the confederate states, died yesterday at the Rockingham hotel, to which place she came as a guest in the early part of the Pier's social season. She had been ill for several weeks, and a fortnight ago her ailment was diagnosed as malarial gastritis. At times her condition became very serious, so that consultations of physicians were deemed necessary, but frequent rallies gave renewed hope that she would ultimately recover.

Saturday night, however, a relapse in Miss Davis' condition was noticed, and yesterday morning the physicians said the end was not far off, and at noon death came to end her sufferings. The physicians of Mrs. Davis report she is holding up with great calmness in her affliction.

Scottish Rite Masons.

Cincinnati, Sept. 19.—There were many arrivals for the biennial session of the supreme council of the 33d degree Scottish Rite Masons of the northern jurisdiction of the United States. The supreme council does not convene till tomorrow. On Wednesday and Thursday the 33d, or honorary degree will be conferred.

POLITICAL BREVITIES.

Senator Fairbanks had a great meeting at Princeton Saturday and made a great speech.

Dr. W. T. Carmichael, of Walesboro, has been nominated for joint senator by the populist of Bartholomew and Decatur counties.

Chairman Hernly is well pleased with the campaign opening in Indiana. The displeasures of the state democratic managers is especially gratifying.

Booths Going Up.
C. W. Milhous, the druggist, has his street fair booth well under way and when completed will be very attractive. Mr. Milhous offers premiums on historical curiosities.

L. F. Miller, the dry goods man, is putting up a spacious booth in which he will have an attractive display. He offers liberal premiums on the best dressed doll and the most artistic silk pillow.

A. J. Pellens, the druggist, is erecting a nice booth in which he will have a display of quinces and crab apples, on which he offers premiums.

The Thomas Clothing Company is getting a fine booth ready for a display of corn. The premiums offered by this firm is for the best six ears of white corn.

Other booths will probably be begun today.

The Big Stage.
The big stage on Second street was begun today and will be rapidly pushed to completion. This is one of the platforms on which entertainments will be given during the street fair. The other stages will be erected during the week.

Don't Hitch to Booths.
Occasionally we notice some one hitching his horse to street fair booths that are being erected. This ought not to be done in any case. The booths are not so constructed that they can be used for hitching racks, without being damaged more or less. Find some other place for your horse if you need to hitch him.

It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per bottle. For sale by W. F. Peter.

THE CITIZENS' TICKET

The county ticket nominated here Saturday is an exceptionally good one from top to bottom. The men nominated are representative citizens who will do their full duty as officials. Every one of them has individual strength that will give strength to the ticket as a whole. Their integrity, honest and capability are above reproach. Good men were defeated in the convention, for every man who sought a place on the ticket is worthy, and would have made a good race.

James Marsh, the nominee for representative, is a Redding township farmer. He is intelligent and honest and will faithfully represent the interests of Jackson township in the legislature.

James W. Lewis, the nominee for clerk, is a resident of Vernon township. He is a progressive farmer, a progressive citizen, a man of education and intelligence, uprightness of character, and in every way fitted for the duties of the clerk's office.

A. H. Manuel is one of the substantial men of Saltcreek township and resides at Freetown. He is well acquainted throughout the county and is held in high esteem. He is exceptionally well qualified for the important duties of the auditor's office.

Josephus Goss is one of the well known of the county, and his nomination for sheriff will be received with much favor in every township. He is a resident of Owen township where he was elected and served the people well as trustee a few years ago. He will make a faithful and trustworthy sheriff.

Henry F. Bruning, the nominee for recorder, is a resident of Jackson township, but has a wide acquaintance throughout the county. He has influential friends in every township, which with his individual strength, makes him a strong candidate. He will make an excellent official.

Dr. A. M. Veazey, of Medora, the nominee for coroner, is a reputable physician, and is favorably known all over Jackson county. His qualifications for coroner cannot be called in question. Samuel Carr, who was nominated for surveyor, is a resident of Carr township. He is a substantial citizen, a man of intelligence and well equipped for the duties of the surveyor's office.

E. A. Whitcomb, the nominee for commissioner of the 1st district, is a farmer and resides in Brownstown township. He is a man of strict integrity and uprightness of character, a man of excellent judgment and business ability. He has superior qualifications for the duties that devolve upon a county commissioner.

Then, to repeat, the whole ticket is a good one, and will appeal to the intelligence of the voters of Jackson county. The men whose name are on this citizens' ticket are men who can be relied upon to do their full duty as officials. The people will elect them.

Swapping Telephones.

The following story comes from the Grand Rapids Press and has to do with a man and a woman who are employed in different offices in one of the large buildings of that city. Each office has a telephone, but as it happens one is an instrument belonging to the Citizens' company, the other a Bell instrument.

One day the man had occasion to use the Citizens' line and stepped across the hall to the lady's office.

"Have you a Citizens' phone?" he asked, and she replied in the affirmative.

"Well," he ventured: "I'm a citizen. May I use it?"

Why, of course he might use it, but inwardly she was inclined to envy his ability to stand up and assert his citizenship in this way, for some of her womanly propensities were of the "new-fish" sort. An hour later she balanced accounts with him.

"Have you a Bell telephone?" she asked on stepping into his office. He did not try to deny it.

"Well, I'm a belle. May I use it?"

The Howell Torpedo.

Commodore John A. Howell, who has just been promoted to the rank of rear admiral, is the inventor of a self propelling torpedo that differs in several respects from the Whitehead. The chief novelty of the American system relates to the mode of driving the screw.

Whitehead stored compressed air in a chamber in his torpedo and placed in an adjoining compartment a small engine which should be operated thereby at the right juncture. Howell employs a heavy flywheel, which is put in rapid revolution, just before the torpedo is launched, by connecting its projecting axle with a steam engine that is entirely independent of the torpedo. The Howell system has been improved since it was first patented in 1871, and it has been extensively used in the United States navy.

THE SOLDIERS OF 1861 AND 1898.

In the course of his recent speech at the opening of the campaign in Indianapolis, Mr. Beveridge said:

"Soldiers of '61! A generation has passed and you have reared a race of heroes worthy of your blood—heroes of El Caney, San Juan and Cavite, of Santiago and Manila! Aye, and 200,000 more as brave as they, who waited in their camps with an agony of impatience the call to battle, ready to count the hellish hardships of the trenches—the very sweets of death—if they could only fight for the flag. For every tented field was full of Hobsons, Roosevelts, Wheelers and their men; full of the kind of soldiers that, in the snows of winter, made Valley Forge immortal; full of the same kind of boys that endured the hideous hardships of the civil war, drank from filthy roadside pools as they marched through the swamps of death, ate food alive with weevil, and even corn picked from the horses' camps, slept in the blankets of the blast with sheets of sleet for covering, breakfasted with danger and dined with death and came back—those who did come back—with a laugh and a shout and a song of joy, true American soldiers. For that is the kind of boys the soldiers of 1898 are, notwithstanding the slanders of politicians and the infamy of a leprous press which try to make the world believe that our soldiers are sucking babes and womanish weaklings."

Mr. Beveridge has exactly the right opinion of the soldiers of '98. These soldiers are already returning and resent the falsehood that they are not as patriotic as the soldiers of '61, and they refuse to join hands with the democratic politician in maligning the government they enlisted to fight for.

FEAR OF RAIN IN CUBA.

The Evil Effect of Water Is Not a Mere Superstition There.

The average Cuban is dreadfully afraid of rainwater. He believes that drenching in a rainstorm, followed by exposure to the rays of the sun, produces fever—not necessarily yellow fever, but an attack something similar to what is known as swamp fever in Mississippi or chagras in the isthmus of Panama.

The same belief prevails in Central and South America, but in a greater degree. On both coast lines of Nicaragua a light shower is the signal for a general scampering indoors and a disinclination to come out again until the sky is perfectly clear. Up on the high plateau on which the city of Caracas in Venezuela is situated and where there should be no fear of fever the natives are afraid to get even their faces wet. At the first appearance of a rainstorm the cab drivers, of whom there are more than 400, put up oilcloth screens in front of them and direct the course of the horses through a couple of peepholes, avoiding even a slight splash in the face.

All strangers from northern latitudes visiting Caracas are advised that not only is rain dangerous, but that it is not safe to take a bath within ten days after their arrival. Men accustomed to a daily plunge find this advice difficult to follow, especially in such a warm climate. Most of them disregard it and find that it does them no harm, and that it is a superstition based upon the laziness that follows a residence in an atmosphere so enervating that the dogs are too tired to get out of the way of the horse if the horse wasn't too tired to step on them.

The Cuban fear of rain, however, is based upon experience and is not a mere superstition.—New York Press.

A SENSIBLE VIEW.

The Cincinnati Enquirer Discusses the War and Its Consequences in a Spirit of Fairness.

It is hardly necessary to explain that the Cincinnati Enquirer is a Democratic newspaper. It has always been antagonistic to the Republican party, but it does not endorse the course of sensational yellow journals that have hitherto seized upon pitiful yet inevitable misfortunes of war in the hope of making political capital and forwarding partisan purposes. The Enquirer recently published a double-headed editorial with reference to the war and its management, and its observations are so conservative, so timely and pointed as to deserve the deliberate consideration and hearty indorsement of every intelligent American.

"Under the strong tension of patriotism," says The Enquirer, "everything is forgotten but the nation's needs. Up with the flag; on with the march. The danger being past, the reaction comes. The spirit of exaltation gradually yields and the spirit of criticism and fault-finding comes forward, as if to make up for lost time."

"These reflections are naturally suggested by the sudden change in the nation's frame of mind within the last two or three weeks. What room was there for any uncomfortable thought in any American's mind when the news came of the prodigious exploit of Dewey and his men at Manila? Who thought of doubting the perfection of the administration of army and navy during the three weeks of the Santiago campaign, resulting in the destruction of the Spanish fleet, the capture of the city and army, and the cry of 'enough' from the insolent foe? As those were glorious days. It is true Shafter had been rash; so was Grant at Fort Donelson. The great commander tells us in his memoirs that the final victory there belonged to whichever side should make the boldest push forward, and that he won the victory by passing the word through the camp while the soldiers were as yet only stirring for the day that it had already been won. So it was at Santiago. Shafter fought his own doubts and from the nettle danger plucked the flower of safety, because he possessed the genius of courage. In the presence of American valor on land the Spanish fleet preferred the chances of escape by running the gauntlet under American battleships to remaining under the fire of the American artillery, which was growing from the hills surrounding Santiago."

"What nation ever gained equal prestige within three months? The whole world has waited anxiously to see whether the modern battleship, now on trial for the first time, would be more destructive to the enemy or to itself. Our gunners at Manila and at Santiago sent their projectiles with as unerring aim as that of our crack marksmen when shooting the necks from bottles thrown into the air. Our soldiers, less than 25,000 in number, attacking an equal number of the enemy in their entrenchments and fortifications, laughing at the deadly fire from ambush which met them on the way. The reader will say: 'We knew all this before; why this recital?' The answer is that these glorious achievements ought to be constantly kept in view to restrain the spirit of pessimism now so rife in the country. It is true that our soldiers have suffered and are suffering in hospital camps; that the vast machinery of transportation has not worked without a great deal of friction; that the surgeon general has been unable to attain perfection throughout his vast department, and that sanitary skill has not in any camp reached the desired state of perfection. But who shall presume to determine how much of this could have been averted by human agencies, and how much of it is due, as the legal phrase goes, to the hand of God?"

"Then, as to human fallibility in camp and field, who can justly apportion the responsibility between chiefs and subordinates? Does any man believe that the president or the secretary of war has been indifferent at any time to the needs of the soldiers? If a single commissary sergeant neglects his duty, how can this instantly be known at Washington? The army is a great machine. The commissary general tries to have it fed; the quartermaster general tries to have it clothed, and the surgeon general tries to look after its health; but through what numberless agencies do these men act? What human power can compel faithfulness and promptness through all these subordinates? Faithless men should be removed, but their misconduct must first be established. The army is governed by articles of war enacted by congress. The president, the secretary of war and his chief of bureau, the generals of corps, the generals of divisions, the generals of brigades, the field officers of regiments and the officers of companies, all have their duties to perform. What housewife gets perfect service from her handmaid of servants? What father secures absolute obedience from his minor children when they are out of his sight? And how is it possible that a great army should move like clockwork and always have at hand just what is needed and at the exact hour? If there have been any unusual disasters in our armies, and if they have resulted from criminal negligence, there will be a time for the truth to be known, and lawful and reasonable methods for finding it out. But it must be evident to every rational man that just judgments cannot be pronounced upon government officials by mere circulation of ex parte statements, many of which originate in unreliable sources."

and most of which carry with them no direct information as to where the blame should rest.

"Would it not be well if the public mind could now be turned to more interesting themes than either the acci-

dents or the faults of army administration, and the world be permitted to see the American people a little better reconciled to their own government than some of our newspapers have represented them to be during the last fortnight?"

A "STAFF OFFICER" UNDER COVER.

The Democratic party never did anything in the open, therefore it is no cause of wonder to find General Boynton's report of his investigation of conditions at the Chickamauga camp attacked by anonymous mourners over soldiers' woes. The accusers in ambush are supposed to be officers and soldiers of Democratic proclivities, who have been delinquent themselves in the discharge of their duties. For that reason they put themselves behind the excuse of fear of court-martial for not giving their names for publication.

The most outrageous instance of abuse of this kind is that of the column assault on General Boynton's important conclusions which recently appeared in that very enterprising Democratic newspaper, the Kansas City Star. All that the public knows about the writer is that he represents himself as a "staff officer" whose charges are based upon an alleged report of a "Distinguished Surgeon," of whose identity "Staff Officer" does not give the slightest clue. Yet it is such stuff, manufactured for political purposes, the people are apt to believe. If "Staff Officer" is a reality, the war department should drag him from cover and have him make good his charges or dismiss him from the service, if he does not, for being a political liar of the vilest degree. If there is such a person in this connection as a "Distinguished Surgeon," he should be called to the stand and asked why, if he knew of such horrors and had a written report thereon, he did not tell the war department about them, and not withhold his report to have it made public by an anonymous "Staff Officer," writing for a Democratic newspaper. "Staff Officer's" story is very fishy.

HE SAYS THE LIES ARE INFAMOUS.

Corporal Gessel of Company D, 158th Indiana, is not a Democratic campaigner either as a soldier or civilian. He is one of that great number of steady, earnest, loyal volunteers who have done their duty well and knew when they enlisted that a soldier's life at its best was a hard one. He says:

"I feel it my duty to protest against the stories that are being printed in some of the newspapers. I have visited the division hospitals frequently, and I know that the sick are receiving the best attention. There is but one complaint that might be made, and that is that in some of the hospitals there are more patients than the attendants can care for. The men in the division hospitals have cots and clean sheets. In the Sternberg hospital single iron bedssteads are provided and the men lie on woven wire mattresses. The food is not bad. The sick get all the food their systems will stand. A fever patient, the physicians say, does not know what his system really needs, and sometimes complains, when, as a matter of fact, he is getting just what he ought to have. This effort to make the relatives of the soldiers believe that the volunteers are being mistreated in the division hospitals is infamous, as every honest man who has made an investigation will testify."

THE ORGAN AND PARTY LEADERS

The Indianapolis Sentinel that 35 years ago, as a good and loyal Democratic organ, protected the Democratic party in the south from accusations of starving and shooting down Union soldiers in prison-pens in the rebel states, said recently that it was a shame to drag the treatment of the soldiers of today into politics; that it, as well as all other Democratic papers, was not exaggerating the conditions of camps in the south and "unnecessary suffering" in Cuba and Porto Rico. The next day the Indianapolis newspaper quoted ex-attorney General Green Smith, a Democrat of Democrats, as saying that the alleged mismanagement of the camps would help his party. He said: "The administration must bear the responsibility. It may not be necessary for campaign speakers to say much about it. The mothers and sisters are doing the talking just now."

This was in connection with a statement that the Democratic state central committee was to outline a policy of making all the political capital possible out of the matter.

Anti-expansion of territory the Democratic party tried to monopolize as a campaign issue, but there was a fruitful difference of opinion among the leaders. They could not come together, therefore they pounced upon military hospitals and the commissary department for stock in trade. With the assistance of pipe-dreams and misrepresentations as to soldiers' sufferings, the party is revelling in hope of doing a great deal for itself and little for the country.

POLITICAL BREVITIES.

Senator Fairbanks had a great meeting at Princeton Saturday and made a great speech.

Dr. W. T. Carmichael, of Walesboro, has been nominated for joint senator by the populist of Bartholomew and Decatur counties.

Chairman Hernly is well pleased with the campaign opening in Indiana. The displeasures of the state democratic managers is especially gratifying.

Booths Going Up.

C. W. Milhous, the druggist, has his street fair booth well under way and when completed will be very attractive. Mr. Milhous offers premiums on historical curiosities.

L. F. Miller, the dry goods man, is putting up a spacious booth in which he will have an attractive display. He offers liberal premiums on the best dressed doll and the most artistic silk pillow.

A. J. Pellens, the druggist, is erecting a nice booth in which he will have a display of quinces and crab apples, on which he offers premiums.

The Thomas Clothing Company is getting a fine booth ready for a display of corn. The premiums offered by this firm is for the best six ears of white corn.

Other booths will probably be begun today.

The Big Stage.

The big stage on Second street was begun today and will be rapidly pushed to completion. This is one of the platforms on which entertainments will be given during the street fair. The other stages will be erected during the week.

Don't Hitch to Booths.

Occasionally we notice some one hitching his horse to street fair booths that are being erected. This ought not to be done in any case. The booths are not so constructed that they can be used for hitching racks, without being damaged more or less. Find some other place for your horse if you need to hitch him.

THE CITIZENS' TICKET

The county ticket nominated here Saturday is an exceptionally good one from top to bottom. The men nominated are representative citizens who will do their full duty as officials. Every one of them has individual strength that will give strength to the ticket as a whole. Their integrity, honest and capability are above reproach. Good men were defeated in the convention, for every man who sought a place on the ticket is worthy, and would have made a good race.

James Marsh, the nominee for representative, is a Redding township farmer. He is intelligent and honest and will faithfully represent the interests of Jackson township in the legislature.

James W. Lewis, the nominee for clerk, is a resident of Vernon township. He is a progressive farmer, a progressive citizen, a man of education and intelligence, uprightness of character, and in every way fitted for the duties of the clerk's office.

A. H. Manuel is one of the substantial men of Saltcreek township and resides at Freetown. He is well acquainted throughout the county and is held in high esteem. He is exceptionally well qualified for the important duties of the auditor's office.

Josephus Goss is one of the well known of the county, and his nomination for sheriff will be received with much favor in every township. He is a resident of Owen township where he was elected and served the people well as trustee a few years ago. He will make a faithful and trustworthy sheriff.

Henry F. Bruning, the nominee for recorder, is a resident of Jackson township, but has a wide acquaintance throughout the county. He has influential friends in every township, which with his individual strength, makes him a strong candidate. He will make an excellent official.

Dr. A. M. Veazey, of Medora, the nominee for coroner, is a reputable physician, and is favorably known all over Jackson county. His qualifications for coroner cannot be called in question.

Samuel Carr, who was nominated for surveyor, is a resident of Carr township. He is a substantial citizen, a man of intelligence and well equipped for the duties of the surveyor's office.

E. A. Whitcomb, the nominee for commissioner of the 1st district, is a farmer and resides in Brownstown township. He is a man of strict integrity and uprightness of character, a man of excellent judgment and business ability. He has superior qualifications for the duties that devolve upon a county commissioner.

Then, to repeat, the whole ticket is a good one, and will appeal to the intelligence of the voters of Jackson county. The men whose name are on this citizens' ticket are men who can be relied upon to do their full duty as officials. The people will elect them.

Swapping Telephones.

The following story comes from the Grand Rapids Press and has to do with a man and a woman who are employed in different offices in one of the large buildings of that city. Each office has a telephone, but as it happens one is an instrument belonging to the Citizens' company, the other a Bell instrument.

One day the man had occasion to use the Citizens' line and stepped across the hall to the lady's office.

"Have you a Citizens' phone?" he asked, and she replied in the affirmative.

"Well," he ventured: "I'm a citizen. May I use it?"

Why, of course he might use it, but inwardly she was inclined to envy his ability to stand up and assert his citizenship in this way, for some of her womanly propensities were of the "newish" sort. An hour later she balanced accounts with him.

"Have you a Bell telephone?" she asked on stepping into his office. He did not try to deny it.

"Well, I'm a belle. May I use it?"

The Howell Torpedo.

Commodore John A. Howell, who has just been promoted to the rank of rear admiral, is the inventor of a self propelling torpedo that differs in several respects from the Whitehead. The chief novelty of the American system relates to the mode of driving the screw.

Whitehead stored compressed air in a chamber in his torpedo and placed in an adjoining compartment a small engine which should be operated thereby at the right juncture. Howell employs a heavy flywheel, which is put in rapid revolution, just before the torpedo is launched, by connecting its projecting axle with a steam engine that is entirely independent of the torpedo. The Howell system has been improved since it was first patented in 1871, and it has been extensively used in the United States navy.

THE SOLDIERS OF 1861 AND 1898.

In the course of his recent speech at the opening of the campaign in Indianapolis, Mr. Beveridge said:

"Soldiers of '61! A generation has passed and you have reared a race of heroes worthy of your blood—heroes of El Caney, San Juan and Cavite, of Santiago and Manila Aye, and 200,000 more as brave as they, who waited in their camps with an agony of impatience the call to battle, ready to count the hellish hardships of the trenches—the very sweets of death—if they could only fight for the flag. For every tented field was full of Hobsons, Roosevelts, Wheelers and their men; full of the kind of soldiers that, in the snows of winter, made Valley Forge immortal; full of the same kind of boys that endured the hideous hardships of the civil war, drank from filthy roadside pools as they marched through the swamps of death, ate food alive with weevil, and even corn picked from the horses' camps, slept in the blankets of the blast with sheets of sleet for covering, breakfasted with danger and dined with death and came back—those who did come back—with a laugh and a shout and a song of joy, true American soldiers. For that is the kind of boys the soldiers of 1898 are, notwithstanding the slanders of politicians and the infamy of a leprous press which try to make the world believe that our soldiers are suckling babes and womanish weaklings."

Mr. Beveridge has exactly the right opinion of the soldiers of '98. These soldiers are already returning and represent the falsehood that they are not as patriotic as the soldiers of '61, and they refuse to join hands with the democratic politician in maligning the government they enlisted to fight for.

FEAR OF RAIN IN CUBA.

The Evil Effect of Water Is Not a Mere Superstition There.

The average Cuban is dreadfully afraid of rainwater. He believes that drenching in a rainstorm, followed by exposure to the rays of the sun, produces fever—not necessarily yellow fever, but an attack something similar to what is known as swamp fever in Mississippi or chagres in the isthmus of Panama.

The same belief prevails in Central and South America, but in a greater degree. On both coast lines of Nicaragua a light shower is the signal for a general scampering indoors and a disinclination to come out again until the sky is perfectly clear. Upon the high plateau on which the city of Caracas in Venezuela is situated and where there should be little or no fear of fever the natives are afraid to get even their faces wet. At the first appearance of a rainstorm the cab drivers, of whom there are more than 400, put up oilcloth screens in front of them and direct the course of the horses through a couple of peepholes, avoiding even a slight splash in the face.

All strangers from northern latitudes visiting Caracas are advised that not only is rain dangerous, but that it is not safe to take a bath within ten days after their arrival. Men accustomed to a daily plunge find this advice difficult to follow, especially in such a warm climate. Most of them disregard it and find that it does them no harm, and that it is a superstition based upon the laziness that follows a residence in an atmosphere so enervating that the dogs are too tired to get out of the way of the horse if the horse wasn't too tired to step on them.

The Cuban fear of rain, however, is based upon experience and is not a mere superstition.—New York Press.

A SENSIBLE VIEW.

The Cincinnati Enquirer Discusses the War and Its Consequences in a Spirit of Fairness.

It is hardly necessary to explain that the Cincinnati Enquirer is a Democratic newspaper. It has always been antagonistic to the Republican party, but it does not indorse the course of sensational yellow journals that have hitherto seized upon pitiful yet inevitable misfortunes of war in the hope of making political capital and forwarding partisan purposes. The Enquirer recently published a double-leaded editorial with reference to the war and its management, and its observations are so conservative, so timely and pointed as to deserve the deliberate consideration and hearty indorsement of every intelligent American.

"Under the strong tension of patriotism," says The Enquirer, "everything is forgotten but the nation's needs. Up with the flag; on with the march. The danger being past, the reaction comes. The spirit of exaltation gradually yields and the spirit of criticism and fault-finding comes forward, as if to make up for lost time.

"These reflections are naturally suggested by the sudden change in the nation's frame of mind within the last two or three weeks. What room was there for any uncomfortable thought in any American's mind when the news came of the prodigious exploit of Dewey and his men at Manila? Who thought of doubting the perfection of the administration of army and navy during the three weeks of the Santiago campaign, resulting in the destruction of the Spanish fleet, the capture of the city and army, and the cry of 'enough' from the insistent foe? Ah, those were glorious days. It is true Shafter had been rash; so was Grant at Fort Donelson. The great commander tells us in his memoirs that the final victory there belonged to whichever side should make the boldest push forward, and that he won the victory by passing the word through the camp while the soldiers were as yet only stirring for the day that it had already been won. So it was at Santiago. Shafter fought his own doubts and from the nettle danger plucked the flower of safety," because he possessed the genius of courage. In the presence of American valor on land the Spanish fleet preferred the chances of escape by running the gauntlet under American battleships to remaining under the fire of the American artillery, which was growing from the hills surrounding Santiago.

"What nation ever gained equal prestige within three months? The whole world has waited anxiously to see whether the modern battleship, now on trial for the first time, would be more destructive to the enemy or to itself. Our gunners at Manila and at Santiago sent their projectiles with as unerring aim as that of our crack marksmen when shooting at the necks from bottles thrown into the air. Our soldiers, less than 35,000 in number, attacking an equal number of the enemy in their entrenchments and fortifications, laughing at the deadly fire from ambush which met them on the way. The reader will say: 'We knew all this before; why this recital?' FREIGHT WRECK.

Several Cars Piled Up Near Whitcomb's Hill

A serious freight wreck occurred about four miles west of North Vernon at 10 o'clock Saturday night. A long and heavily loaded freight train, east-bound, stalled on Whitcomb's grade. The train was divided and the engine and half the train went to West Vernon to place them in the side track, intending to go back for the west half of the train. As soon as the pin was pulled the cars, not being protected by brakes, ran back at a rapid rate and crashed into the rear section with terrific force, derailing a number of cars and smashing many of them to pieces. Among the cars broken up were two loaded with flour for export from the Blish Milling company. Samuel Hodapp and his crew were at once called to the scene and are there yet and may not be through till tonight. Passenger trains Sunday were run by way of Columbus.

IN MEMORIAM

Sarah Shields Blish, Born August 18th, 1835; Died March 15th, 1896.

Beautiful and impressive ceremonies were held at the First Presbyterian church Sunday morning, in memory of the late Sarah S. Blish, the occasion being the dedication of the new pastor's study, recently built and given by her children.

The pastor, Rev. J. T. Charlton, was assisted by the Reverend Doctors, Chas. H. Hutchinson, of the Second Presbyterian church, New Albany, E. C. Trimble, of the Mission Presbyterian church, Indianapolis, and W. O. Goodloe, of the First Presbyterian church, Harrodsburg, Ky., the two latter being former pastors of the church here, and the former its lifelong friend, having been present at its organization forty-three years ago. [The Rev. John F. Baird, recent pastor, was prevented from being present by illness.

Dr. Hutchinson opened the ceremonies, telling, in his beautiful manner, of the first organization of the church in Seymour in 1855, and how it was through the efforts of Mrs. Blish's mother, the late Eliza P. Shields, aided by half a dozen other good people, that the organization was perfected and the little church successfully launched.

Rev. Trimble followed with a brief account of his ten years' pastorate; how the church prospered and grew in members and strength. He told of the building of the present edifice, and paid glowing tributes to the memory of the good people who assisted him at that time. He spoke feelingly of Mrs. Blish, Dr. and Mrs. Charlton, Dr. Gerrish and others.

Dr. Goodloe then closed the services by telling of later church history, and particularly of Mrs. Blish's unceasing interest in it and of her love and loyalty to the church, her family and to Seymour, her life long home.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in Consumption. Four Doctors gave me up saying I could live but a short time. I gave my self up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption. Cough and Cold. I gave it a trial, took in all eight bottles. It has cured me, and thank God I am saved and now a well and healthy woman." Trial bottles at W. F. Peter Drug Store. Regular size 50c and \$1.00. Guaranteed on price refunded.

CHURCH NOTES.

Attendance at the M. E. Sunday-school was 173; collection, \$1.63.

Attendance at the Presbyterian Sunday school was 125; collection, \$1.43.

Attendance at the Baptist Sunday-school was 127; collection, \$1.20.

Attendance at the German M. E. Sunday school was 101; collection, \$1.48.

Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have an annoying sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by (catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

DIED.

The death of Rev. Henry Kuehn, of Dudleytown, was briefly announced in Saturday's REPUBLICAN. He was a minister for over half a century, and had filled the pulpit of the German Lutheran church for seventeen years. He was always popular with the people. His death occurred Friday forenoon, September 16, 1896. He was in the eightieth year of his age. His death was due to granulation of the foot and infirmity. He leaves a wife, five daughters and four sons, the latter all ministers, the oldest of whom, Christian Kuehn, of New York, arrived at Dudleytown Sunday. The funeral took place at 1 o'clock today at Dudleytown. The sermon was preached by Rev. Seule, of Indianapolis.

IN MEMORIAM

Sarah Shields Blish. Born August 18th, 1835; Died March 15th, 1896.

Beautiful and impressive ceremonies were held at the First Presbyterian church Sunday morning, in memory of the late Sarah S. Blish, the occasion being the dedication of the new pastor's study, recently built and given by her children.

The pastor, Rev. J. T. Charlton, was assisted by the Reverend Doctors, Chas. H. Hutchinson, of the Second Presbyterian church, New Albany, E. C. Trimble, of the Mission Presbyterian church, Indianapolis, and W. O. Goodloe, of the First Presbyterian church, Harrodsburg, Ky., the two latter being former pastors of the church here, and the former its lifelong friend, having been present at its organization forty-three years ago. The Rev. John F. Baird, recent pastor, was prevented from being present by illness.

Dr. Hutchinson opened the ceremonies, telling in his beautiful manner, of the first organization of the church in Seymour in 1855, and how it was through the efforts of Mrs. Blish's mother, the late Eliza P. Shields, aided by half a dozen other good people, that the organization was perfected and the little church successfully launched.

Rev. Trimble followed with a brief account of his ten years pastorate; how the church prospered and grew in members and strength. He told of the building of the present edifice, and paid glowing tributes to the memory of the good people who assisted him at that time. He spoke feelingly of Mrs. Blish, Dr. and Mrs. Charlton, Dr. Gerrish and others.

Dr. Goodloe then closed the services by telling of later church history, and particularly of Mrs. Blish's unceasing interest in it and of her love and loyalty to the church, her family and to Seymour, her life long home.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in Consumption. Four Doctors gave me up saying I could live but a short time. I gave my self up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption. Cough and Cold. I gave it a trial, took in all eight bottles. It has cured me, and thank God I am saved and now a well and healthy woman." Trial bottles at W. F. Peter Drug Store.

Regular size 50c and \$1.00. Guaranteed on price refunded.

Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have an annoying sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by (catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

DIED.

The death of Rev. Henry Kuehn, of Dudleytown, was briefly announced in Saturday's REPUBLICAN. He was a minister for over half a century, and had filled the pulpit of the German Lutheran church for seventeen years. He was always popular with the people. His death occurred Friday forenoon, September 16, 1898. He was in the eightieth year of his age. His death was due to granulation of the foot and infirmity. He leaves a wife, five daughters and four sons, the latter all ministers, the oldest of whom, Christian Kuehn, of New York, arrived at Dudleytown Sunday. The funeral took place at 1 o'clock today at Dudleytown. The sermon was preached by Rev. Seule, of Indianapolis.

THE LADIES.

The pleasant effect and perfect safety with which ladies may use Syrup of Figs, under all conditions, makes it their favorite remedy. To get the true and genuine article, look for the name of the California Fig Syrup Co. printed near the bottom of the package. For sale by all druggists.

The War Is Over

And now our thoughts are all of peace and home. There are, too often, people to be found who have no home, and it is to them these few words are addressed. If you really want a home you can easily get one, but you should act at once before the release from the war puts prices on the advance. In Marinette County, Wisconsin, the very finest farming land is to be had now at a most modest figure. Excellent home markets are at hand to take whatever the farmer raises, and good prices are given. These lands are on the Chicago, Milwaukee & St. Paul Railway, and full information concerning them will cheerfully be furnished by C. E. Rollins, Immigration Agent, 161 La Salle Street, Chicago.

A CRITICAL TIME

DURING THE BATTLE OF SAN TIAGO.

Sick or Well: a Rush Night and Day.

The Packers at the Battle of Santiago de Cuba were all Heroes. Their Heroic Efforts in Getting Ammunition and Rations to the Front Saved the Day.

P. E. Butler, of pack-train No. 3, writing from Santiago, De Cuba, on July 23, says: "We all had diarrhoea in more or less violent form, and when we landed we had no time to see a doctor, for it was a case of rush and rush night and day to keep the troops supplied with ammunition and rations, but thanks to Chamberlain's Colic, Cholera and Diarrhoea Remedy, we were able to keep at work and keep our health; in fact, I sincerely believe that at one critical time this medicine was the indirect savior of our army, for if the packers had been unable to work there would have been no way of getting supplies to the front. There were no roads that a wagon train could use. My comrade and myself had the good fortune to lay in a supply of this medicine for our packtrain before we left Tampa and I know in four cases it absolutely saved life."

The above letter was written to the manufacturers of this medicine, the Chamberlain Medicine Co., Des Moines, Iowa. For sale by C. W. Milhouse.

STREET FAIR PROGRAMME.

MONDAY, SEPT. 26, OPENING DAY.

An industrial parade in which all the local industries will be represented. The parade disbands at the large stage on west Second street where the fair will be formally opened by Mayor A. W. Mill. Other prominent speakers will take part in the opening ceremonies after which the performance upon the three large stages will begin.

Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work. This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle-working medicine is a godsend to weak, sickly, run down people. Price 50 cents. Sold by Wm. F. Peters, Druggist.

Mrs. S. H. Williams and Miss Kate Williams returned Sunday to Jeffersonville from a splendid visit to friends here.

L. B. Seifert, of Washington, G. H. Fridman, of Cincinnati, D. F. Tenner, of Frankfort, Ky., were guests here yesterday.

Spain's Greatest Need.

Mr. R. P. Olivia, of Barcelona, Spain, spends his winters at Aiken, S. C. Weak nerves had caused severe pains in the back of his head. On using Electric Bitters, America's greatest blood and Nerve Remedy, all pain soon left him. He says this grand medicine is what his country needs. All America knows that it cures liver and kidney trouble, purifies the blood, tones up the stomach, strengthens the nerves, puts vim, vigor and new life into every muscle, nerve and organ of the body. If weak, tired or ailing you need it. Large bottle, guaranteed, only 50 cents. Sold by Wm. F. Peters, Druggist.

A CRITICAL TIME LIFE CRUSHED OUT

DURING THE BATTLE OF SANTIAGO.

Sick or Well: a Rush Night and Day.

The Packers at the Battle of Santiago de Cuba were all Heroes. Their heroic efforts in getting ammunition and rations to the front saved the day.

P. E. Butler, of pack-train No. 3, writing from Santiago, De Cuba, on July 23d, says: "We all had diarrhoea in more or less violent form, and when we landed we had no time to see a doctor, for it was a case of rush and rush night and day to keep the troops supplied with ammunition and rations, but thanks to Chamberlain's Colic, Cholera and Diarrhoea Remedy, we were able to keep at work and keep our health; in fact, I sincerely believe that at one critical time this medicine was the indirect savior of our army, for if the packers had been unable to work there would have been no way of getting supplies to the front. There were no roads that a wagon train could use. My comrade and myself had the good fortune to lay in a supply of this medicine for our pack-train before we left Tampa and I know in four cases it absolutely saved life."

The above letter was written to the manufacturers of this medicine, the Chamberlain Medicine Co., Des Moines, Iowa. For sale by C. W. Milhouse.

Railroad Engineer
Testifies to Benefits Received From
Dr. Miles' Remedies.

THERE is no more responsible position on earth than that of a railroad engineer. On his steady nerves, clear brain, bright eye and perfect self command, depend the safety of the train and the lives of its passengers. Dr. Miles' Nerve and other remedies are especially adapted to keeping the nerves steady, the brain clear and the mental faculties unimpaired.

Engineer F. W. McCoy, formerly of 1323 Broadway, Council Bluffs, but now residing at 411 Humboldt St., Denver, writes that he "suffered for years from constipation, causing sick, nervous and bilious headaches and was fully restored to health by Dr. Miles' Nerve and Liver Pills. I heartily recommend Dr. Miles' Remedies."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nervous free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

THREE MORE WEEKS

Spanish Flag Expected to
Disappear From Porto
Rico In That Time.

THE EVACUATION OF CUBA

Estimated That It Will Be the End of
February Before the Last of Spanish
Troops Leave the Island--Secretary of
War Alger Starts on His Inspection of
Military Camps.

San Juan de Porto Rico, Sept. 19.—The preparations for the embarkation of the Spanish troops are reported to be complete, although the American commissioners have not been officially advised to that effect.

Two ships of the Compania Transatlantica are expected to arrive here on the 26th inst. Five vessels will be required to transport all the troops with their luggage, and the field artillery and equipments. The Porto Rican troops are to be landed near Cadiz.

The United States evacuation commissioners have agreed that such troops as desire to remain here may do so, and practically all the volunteers and some of the regulars whose families and interests are here will remain. If the necessary ships were here the island would be evacuated and formally in our possession within three days.

The American commissioners are highly gratified with the spirit shown by the Spaniards. The unexpected has happened. Where it was expected that opposition and delay would be encountered none has been found. In good faith the Spanish commissioners have met the Americans and arranged with them the terms of evacuation. Our commissioners expect to see the American flag hoisted and the Spanish flag hauled down forever within three weeks.

EVACUATION OF CUBA.

Estimated That It Will Take Until February
For Spanish to Withdraw.

Havana, Sept. 19.—Rumors that have been put in circulation to the effect that General Wade, president of the American evacuation commission is ill with yellow fever, may be denied absolutely. General Wade is looking the picture of health. He breakfasted yesterday with his staff at the Louvre restaurant. Today the commissioners and their entire staff will remove to the Trocha hotel at Vedado, which has been put in excellent sanitary condition. The general health aboard the steamer Resolute is good.

An official meeting of the Spanish commission of evacuation was held Saturday night to consider the form of evacuation by the Spanish troops, and with the object of acquainting the American commission with the exact number and positions of the Spanish soldiers and the best method of embarking them.

It is understood that it is proposed to start the evacuation from east to west, embarking the troops at the ports of Gibara, Nuevitas, Cienfuegos and Havana.

The official statement of the number of Spanish soldiers in the island is said to place the aggregate at 100,000, and it is understood that it is proposed that the men shall carry with them their arms, ammunition, material and equipments.

It is estimated that the end of February will have come before the evacuation of the island is completed, as the soldiers must embark in Spanish vessels.

It is suggested that this will be an advantage to both countries, the United States having an opportunity to acclimatize its men during the winter months, as it is proposed that the American government shall land troops to occupy each post simultaneously with its

Many of the North American Indians were magnificent specimens of physical manhood. This was due, largely, to their active out-door life. Nevertheless, they had the wisdom to know that an active life in the open air alone, would not keep a man healthy. They had their medicine-men, who gathered herbs from field and forest and brewed decoctions to assist the natural processes of the various vital organs.

Modern civilized men do not as a usual thing recognize the same necessity until it is too late. They ignore medicine until they are within the grasp of some serious or fatal disease. The time for a man to begin taking medicine is when he begins to feel out of sorts. If a man is thoroughly well and healthy he does not feel that way. If he does feel that way he may be pretty sure that he is half sick. When he is half sick it does not take long before he is "whole-sick." Dr. Pierce's Golden Medical Discovery is the best medicine for a man when he is sick or getting sick. It puts him all right all round. It puts his stomach right to begin with, and that is the most important point. It puts his liver right, and that is the second most important point. It purifies his blood and fills it with the life-giving elements of the food he eats, and that is the third important point. It drives out all disease germs and impurities of every description. It makes the appetite keen and hearty. It is the greatest blood-maker and flesh-builder. It cures 95 per cent. of all cases of consumption, weak lungs, spitting of blood, obstinate coughs and kindred ailments. Thousands who were given up to die have testified to their recovery under this marvelous medicine. An honest dealer will not urge a substitute for the sake of a little extra profit. He gives you what you ask for.

evacuation, not leaving any post un-

SECRETARY ALGER.

Starts on His Trip of Camp Inspection.
At Fort Thomas Today.

Detroit, Sept. 19.—After a week's vacation at his home, Secretary Alger left last night on his inspection of southern camps and hospitals, accompanied by his aide, Major Hopkins, going to Cincinnati, where he will be joined by Surgeon General Sternberg, Governor Pingree, Brigadier General Duffield and Colonel Gardner of the Thirty-first Michigan saw the secretary aboard his car. Colonel Gardner will join the general on Wednesday at Lexington and go with him to inspect his regiment at Knoxville. The camps to be inspected are at Fort Thomas, Lexington, Knoxville, Chickamauga, Anniston, Ala., and probably Huntsville, Jacksonville and Charleston. Secretary Alger expects to reach Washington a week from next Wednesday.

SOON BE DESERTED.

Fourteen Hundred More Soldiers Leave
Camp Wikoff.

New York, Sept. 19.—The military camp at Montauk Point, L. I., will soon be deserted. In all 1,400 soldiers from Camp Wikoff reached this city yesterday on the transport Chester and the ambulance boat Shinnecock. The troops brought by the Chester, being in fair health, were placed on trains in New Jersey and are now on their way to the posts assigned to them in the different parts of the country. The men of the Sixth United States infantry will do duty at Fort Thomas, at Newport, Ky., and the Tenth United States infantry is proceeding to Huntsville, Ala. Batteries A and E, First artillery, will do duty until further orders at Hilton Head, Port Royal, S. C.

CAPTAIN CAPRON.

Dies at Fort Myer From Disease Con-
tracted at Santiago.

Washington, Sept. 19.—Captain Allyn Capron, First artillery, died at his home near Fort Myer, Va., yesterday. Captain Capron was one of the best known officers in the regular army. He had devoted himself particularly to the artillery branch of the service, having been an honor graduate of the artillery school in 1873, and was regarded as an authority on artillery tactics. When General Shafter's corps went to San-

ago Captain Capron accompanied it, and his battery did notably fine work in the battle of Santiago. During the first day's fight before the city Captain Capron's son, Captain Allyn K. Capron of the Rough Riders, was killed. The death of his son preyed upon the father's mind, but he never swerved for an instant from his duty during the terrible days that followed. The seeds of disease were sown in his system during the Cuban campaign, and he returned to his home at Fort Myer, near this city, only to be stricken down with typhoid fever.

Captain Capron was born in Florida and entered the military academy as a cadet in 1863.

TRANSPORT MICHIGAN.

Arrives From Santiago With Stewards,
Nurses and Laborers.

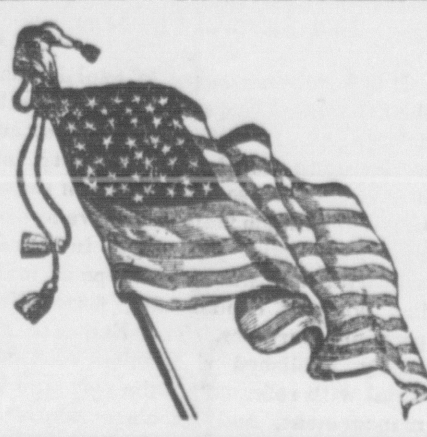

New York, Sept. 19.—The United States transport Michigan arrived from Santiago yesterday, from which port she sailed on Sept. 11. The Michigan brought 29 passengers, among whom are Captain Charles T. Baker, assistant quartermaster; Captain E. Pringle, of the Cuban army; Surgeons Kennedy and Agramonte and two United States army clerks. The other passengers were hospital stewards, nurses and laborers. The Michigan was all boarded by the health officer and being well on board and the transport in good sanitary condition, she was permitted to proceed. The transport anchored off Liberty island awaiting instructions from the quartermaster's department.

Shipping His Sick to Hospitals.

Camp Meade, Pa., Sept. 19.—Fifteen typhoid fever cases were shipped from the Second division hospital last evening to the Charity hospital, Norristown, in a special car. Chief Surgeon Girard believes the sick do better in city hospitals than in tents and has arranged to ship more away today to Harrisburg and Philadelphia hospitals. There are 175 fever and rheumatism patients in the general hospitals and they will be taken away as rapidly as they can be moved.

Colonel Culver Visiting His Sick.

Chickamauga, Ga., Sept. 19.—There were two deaths at Sternberg hospital yesterday. A Chevalier, Company M, Fourteenth New York, and William H. Fowler, Company F, Second Arkansas. There were no deaths at Leiter. Colonel J. S. Culver of the Fifth Illinois volunteer infantry from Springfield, Ills., is here. He is on a visit to the various hospitals here, Lexington and Atlanta, at each of which he has several sick men. All at this point are doing well.

**Maligned Officers and Soldiers.**

Santiago de Cuba, Sept. 19.—Charges have been preferred by Captain Miller of the Second immune regiment and Captain Shelley of the Fifth immunes against Sergeant John W. Johnson of the Third regiment for maligning and libeling the officers and soldiers of their respective regiments in an article published in the Atlanta Constitution on Aug. 2.

HAVEN'T THE POWER.

Directors of a Building Association Can-
not Make an Assignment.

Eminence, Ky., Sept. 19.—A case of much interest was tried Saturday before Judge Carroll. The Eminence Building and Loan association, by the directors, made an assignment to W. L. Hudson and W. E. Clubb. The stockholders attacked the assignment and the court held, after a lengthy argument of counsel, that a building and loan association had no power to make an assignment; that a properly managed building and loan association could not be insolvent, and thereupon the assignment was set aside. The assignees were removed and the business placed in the hands of a receiver until, under the supervision of the court, the stockholders meet and elect new directors and officers, the old directors having abdicated their positions by reason of the pretended assignment. This is an entirely new phase of the building and loan question in Kentucky, and it is the first decision in the state, and able lawyers say the decision is sound and will be upheld by the court of appeals.

Paying Seal Fishery Damages.
Victoria, B. C., Sept. 19.—Word was received here from Ottawa yesterday that checks had been issued to the individual beneficiaries under the sealing award. The total amount is \$300,188 damages and \$172,968 interest.

WILLIAM NEWBERRY.

Dies From Effects of a Beating Received
Nearly a Year Ago.

Greensburg, Ind., Sept. 19.—William Newberry is dead of injuries received last October at a dance near Slabtown, this county. There was a dance at the barn of William Tressler, near Slabtown. Newberry being one of the invited guests. One of the Tressler boys, being jealous of the attentions of Newberry to a neighbor girl, they ordered him to leave the dance. He was followed by the Tresslers and others and badly beaten up. After going some distance he fell unconscious near a fodder shock, and was subsequently taken home, where for months he lay in an unconscious condition. Several delicate surgical operations were performed from time to time to remove pieces of the fractured skull. He was finally able to appear at the trial of Fred Tressler, who was convicted and sent to the penitentiary. The same evening William Newberry's brother was followed home from the dance by unknown persons and murdered. His body was found near a strawstack the next morning.

Indiana M. E. Conference.

Princeton, Ind., Sept. 19.—Rev. G. D. Wolfe of the First Methodist church has completed the programme for the week's session of the Indiana M. E. conference, which meets in this city Sept. 27. Bishops Nisim, Bowman and Hartwell will be present, Bishop Nisim presiding.

Captured the Burglar.

Waterloo, Ind., Sept. 19.—John Johnson, a burglar, was arrested at Kendallville and brought to this city, where he was sent to jail. He burglarized the farm residence of Jeff Beard, near this city, one night last week and on him were found gold bracelets, necklace, rings, razors and \$4.56 in coin.

Has an Alleged Shortage.

Marion, Ind., Sept. 19.—Dr. I. N. Seal, trustee of Liberty township, has been found to be \$1,300 short in his accounts and will resign at once. His neighbors threaten to prosecute him.

ARCHBISHOP DOZAL

Philippine Priest Hopes
the Island Will Not
Remain Spanish.

RECONQUEST OF NATIVES

Would Take Years of Most Cruel Warfare—Religious Orders Must Go, Says the Prelate—Annexionists Have a Majority in National Assembly—Sultan Orders His Troops in Crete Disarmed.

Manila, Sept. 19.—In an interview here with him by a press correspondent Archbishop Dozal of the Philippine islands said:

"I earnestly hope the islands will not remain Spanish because the rebels are now so strong that such a course would inevitably cause appalling bloodshed. The reconquest of the natives is impossible until after years of the most cruel warfare."

He also expressed the hope that the islands would not become absolutely independent, because it was certain that dissensions would occur which would result in incessant strife and a lapse into barbarism and the natural indolence of the tropical race. The only hope, the archbishop declared, was that a strong western power would intervene now. Delay was dangerous because the people are intoxicated, vainglorious and restless.

He said it was undeniable that the religious orders must go, because the whole people had determined to abolish them now that they were able to render their retention impossible. He lay the chief blame upon the Dominicans, Augustines and Franciscan Recollects, the richest orders, and next upon the Benedictines and Capuchins, who are of less importance. The Jesuits, Archbishop Dozal says, are comparatively blameless.

He added that the rival orders quarrel among themselves, intrigue, act unworthily and slander their opponents, thus increasing their general disfavor.

The Provincials, who are approximately equivalent to archdeacons, are mainly responsible. They are utterly beyond the control of the archbishop, who denies possessing much power.

The total number of Spanish priests in the Philippines before the war was about 1,000, but lately every departing steamer has taken 50 or 100 of them away, and now barely 500 remain.

A native priest privately stated to the correspondent that the reason the archbishop hopes for the expulsion of the Friars is orders is that they have grown too powerful for him and that he wishes to strengthen himself. Several responsible Spaniards assured the correspondent that they would refuse to remain here if Spain was restored in the control of the islands. Some of the Spanish soldiers refuse to serve again, and Spanish officers are utterly disgusted with the rottenness of Spain's government and prefer to become American subjects.

The Annexionists have a majority of 71 in the national assembly, but the dissonance of the subject has not been finished.

SULTAN ACCEDES.

To the British Commander's Demand at
Candia.

Candia, Island of Crete, Sept. 19.—The sultan has ordered Djavad Pasha, the military commander in Crete, to accede to the demand of the British admiral, Gerard Henry Noel, for disarmament, thus complying with the whole ultimatum of the admiral. A British military detachment yesterday occupied the entrance to the fort, and it is rumored that the Ottoman troops will be withdrawn and a British force will occupy the town.

Among the prisoners already handed over to Admiral Noel are two who are credited with being ringleaders in the attack on the British camp.

Spanish Peace Commissioners.

Madrid, Sept. 19.—The Official Gazette publishes the announcement of the appointment of Senator Montero Rios, president of the senate; Senor Abazurza, Senor Garriga, General Cerero and Senor Villaurrutia as the Spanish peace commissioners. Senors Du Bose and Arangueren, formerly secretaries to the Spanish legation at Washington, have been transferred from St. Petersburg to Vienna.

Will Insist on Retention of Philippines.

London, Sept. 19.—The Mail's Madrid correspondent says a long conference was held between Senor Sigasta, the premier, and Senor Montero Rios, the president of the Spanish peace commission today, which resulted in the decision that the peace commission shall strenuously defend the retention of the Philippine islands by Spain.

Will Suspend Montojo and Sostoa.

Madrid, Sept. 19.—The supreme council of war has decided to suspend Admiral Montojo and Major Sostoa, director of the Cadiz arsenal.

Probably Fatally Struck.

Danville, Ills., Sept. 19.—Thurman Russell Saturday probably fatally stabbed Harry Cordray. The victim is the son of the great Pacific theatrical manager. His recovery is doubtful. He is about 18 years old, and it is said that the present difficulty was not entirely unexpected by him. The trouble grew out of alleged trouble with other members of Russell's family. Cordray is very popular here.

Proved Self-defense.

Richmond, Ky., Sept. 19.—After a trial lasting two days, young Rutherford Todd, charged with the murder of Daniel W. Little, was acquitted here late Saturday. Todd's plea was self-defense.

EDUCATIONAL

Committee of Fifteen to Investigate the
Subject of a National University.

Winona, Minn., Sept. 19.—Professor Charles DeGarmo of Cornell University, the retiring president of the National Council of Education, yesterday announced the committee of 15 authorized at the meeting of the council in Washington on July 7, last, "to investigate the whole subject of the establishment of a national university, and to report to the council at its next meeting."

The project for a national university has been so vigorously pushed of late, that the council thought the time had come for an authoritative investigation of the subject and the presentation to the country of a report that would be influential in shaping public and legislative opinion. The committee is a very strong one and thoroughly representative, both of the various educational interests of the country and of the several sections. The committee is not appointed to indorse or to oppose any particular plan for a national university and will take up the subject in a thoroughly unbiased and scientific manner.

WINNIE DAVIS

Daughter of Jefferson Davis, President of
the Confederacy, Dead.

Narragansett Pier, Sept. 19.—Miss Winnie Davis, daughter of Mrs. Jefferson Davis, wife of the president of the confederate states, died yesterday at the Rockingham hotel, at which place she came as a guest in the early part of the Pier's social season. She had been ill for several weeks, and a fortnight ago her ailment was diagnosed as malarial gastritis. At times her condition became very serious, so that consultations of physicians were deemed necessary, but frequent rallies gave renewed hope that she would ultimately recover.

Saturday night, however, a relapse in Miss Davis' condition was noticed, and yesterday morning the physicians said the end was not far off, and at noon death came to end her sufferings. The physicians of Mrs. Davis report she is holding up with great calmness in her affliction.

Scottish Rite Masons.

Cincinnati, Sept. 19.—There were many arrivals for the biennial session of the supreme council of the 33d degree Scottish Rite Masons of the northern jurisdiction of the United States. The supreme council does not convene till tomorrow. On Wednesday and Thursday the 33d, or honorary degree will be conferred.

FREIGHT WRECK.

Several Cars Piled Up Near Whitcomb's Hill

A serious freight wreck occurred about four miles west of North Vernon at 10 o'clock Saturday night. A long and heavily loaded freight train, east-bound, stalled on Whitcomb's grade. The train was divided and the engine and half the train went to West Vernon to place them in the side track, intending to go back for the west half of the train. As soon as the pin was pulled the cars, not being protected by brakes, ran back at a rapid rate and crashed into the rear section with terrific force, derailing a number of cars and smashing many of them to pieces. Among the cars broken up were two loaded with flour for export from the Blish Milling company. Samuel Hodapp and his crew were at once called to the scene and are there yet and may not be through till tonight. Passenger trains Sunday were run by way of Columbus.

IN MEMORIAM

Sarah Shields Blish. Born August 18th., 1835; Died March 15th., 1896.

Beautiful and impressive ceremonies were held at the First Presbyterian church Sunday morning, in memory of the late Sarah S. Blish, the occasion being the dedication of the new pastor's study, recently built and given by her children.

The pastor, Rev. J. T. Charlton, was assisted by the Reverend Doctors, Chas. H. Hutchinson, of the Second Presbyterian church, New Albany, E. C. Trimble, of the Mission Presbyterian church, Indianapolis, and W. O. Goodloe, of the First Presbyterian church, Harrodsburg, Ky., the two latter being former pastors of the church here, and the former its lifelong friend, having been present at its organization forty-three years ago. The Rev. John F. Baird, recent pastor, was prevented from being present by illness.

Dr. Hutchinson opened the ceremonies, telling in his beautiful manner, of the first organization of the church in Seymour in 1855, and how it was through the efforts of Mrs. Blish's mother, the late Eliza P. Shields, aided by half a dozen other good people, that the organization was perfected and the little church successfully launched.

Rev. Trimble followed with a brief account of his ten years' pastorate; how the church prospered and grew in members and strength. He told of the building of the present edifice, and paid glowing tributes to the memory of the good people who assisted him at that time. He spoke feelingly of Mrs. Blish, Dr. and Mrs. Charlton, Dr. Gerrish and others.

Dr. Goodloe then closed the services by telling of later church history, and particularly of Mrs. Blish's unceasing interest in it and of her love and loyalty to the church, her family and to Seymour, her life long home.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Grotton S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in Consumption. Four Doctors gave me up saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption. Cough and Cold. I gave it a trial, took in all eight bottles. It has cured me, and thank God I am saved and now a well and healthy woman." Trial bottles at W. F. Peter Drug Store.

Regular size 50c and \$1.00. Guaranteed on price refunded.

Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have an annoying sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by (catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

DIED.

The death of Rev. Henry Kuehn, of Dudleytown, was briefly announced in Saturday's REPUBLICAN. He was a minister for over half a century, and had filled the pulpit of the German Lutheran church for seventeen years. He was always popular with the people. His death occurred Friday forenoon, September 16, 1898. He was in the eightieth year of his age. His death was due to granulation of the foot and infirmity. He leaves a wife, five daughters and four sons, the latter all ministers, the oldest of whom, Christian Kuehn, of New York, arrived at Dudleytown Sunday. The funeral took place at 1 o'clock today at Dudleytown. The sermon was preached by Rev. Seule, of Indianapolis.
